

Hanson's Garden Village's 2024 Spring Newsletter

Happy 1st Day of Spring from Hanson's!

We celebrated the first day of spring today with a special staff lunch and watering demonstration from Brent!

We are working hard to get ready for the 2024 gardening season! The warm weather has given us some positive aspects like early access to greenhouses as well as some things to worry about like when to uncover our outdoor winterized plants. We will stay the course for May sales and do not plan to adjust our planting schedules due to the warm weather. We recently posted a video of Brent's recommendations for how to handle this early spring on [Instagram](#) and [Facebook](#). Check it out for more thoughts on what can get accomplished early and what gardening tasks should wait.

This past week we started our transplant line and planted the first pansy flats for the spring season. We are also finishing up basket planting and will be hanging them. Some peppers have been seeded, cole crop transplanting has begun, but we have not seeded any tomatoes yet. We are slowly expanding into all of our greenhouses, but most things are small or not planted yet.

In the perennial department, we are just starting to transplant our native seedlings and we are potting up our weekly plug and bare root arrivals. We have lots of flats to move and orders to pull into our back greenhouses. #21 greenhouse that was rebuilt this winter has been covered too!

We are currently taking pre-orders for bare root trees, shrubs and fruits through Sunday, April 21st. These orders are taken over the phone at 715-365-2929 and pre-payment is required. In-store sales are

planned to start on Saturday, April 27th - but stay tuned if the weather adjusts our plans!

If you have an urge to plant, join in one of our upcoming planting classes, we have many great options listed below! We recently had a blast during our St. Patrick's Day Kid's Classes this past weekend and we have an Easter Basket Planter Class coming up on Saturday, March 30th. Class signups are taken over the phone or [online](#).

We are also offering a behind the scenes greenhouse tour this Saturday, March 23rd at 10:00am. Call or [email](#) us to register for this free tour.

We are busy growing in the greenhouses this time of year and may not always be close to the office, but you can catch us out here weekdays from 8:30am-5:00pm. We have grassfed beef, seeds, soils, pest solutions and more available, however our bulk soils and mulches are not yet accessible. The only plants currently recommended for purchase are succulents and houseplants from our 1st bay greenhouse. Our General Store opens late April/early May and we are busy unpacking and pricing new garden decor.

Explore this newsletter for lots more information and details on all our sales, classes and events happening at Hanson's this spring!

Our next newsletter will go over new plants for 2024 and tomato and pepper varieties we will be offering this season!

2024 Event & Sale Schedule

Behind the Scenes Greenhouse Tour

Saturday, March 23rd, 10:00am

Join us on Saturday, March 23rd for a free, guided greenhouse tour! Check out the new plants we are growing for 2024 and ask your spring questions.

Tour will last approximately 30 minutes. We will be walking in and out of greenhouses and on possible snow/ice/mud (weather dependent), so please be prepared.

Our office will be open for early spring purchases like seeds, soil and bare root pre-orders, but our

General Store will not be stocked with plants at this time.

Bare root plants save time and money! Bare root plants are a very successful, inexpensive way to plant. Most bare root selections cost 50% less than potted varieties and are easier to move and plant.

We also guarantee all bare root plants through the growing season.

Bare root plants are sold dormant and can be planted as soon as you can dig a hole in the ground. The roots are exposed (not potted) and must be kept moist until planting occurs. Because of the nature of bare root plants, they are only available in the early spring and sell out quickly.

May Token Promotion

During the month of May, for every \$100 spent you will receive a \$5 token good towards purchases at a later date. The redemption period for 2024 will begin on Saturday, June 15th - Herb Fest - through the end of October. They never expire and tokens collected from previous years can also be redeemed starting June 15th, 2024.

Receiving Tokens:

Tokens are given for in-store retail purchases. Tokens are not given for class/workshop fees, held orders, landscape services, consultation and design charges, delivery charges and any other applicable services. Tokens are not given for gift certificate purchases, however, certificates redeemed in May will receive tokens.

Redeeming Tokens:

Tokens will take \$5 off your in-store purchases June 15th through our seasonal closing in October.

If you have tokens from previous years those are redeemable too. You can use multiple tokens at a time. The \$5 value must be used in total - no change will be given for sales under \$5.

Our only stipulation in token redemption is that they can only be used as payment for products and not services. Tokens can not be used as payment for class/workshop fees, held orders, landscape services, consultation and design charges, delivery charges and any other applicable services.

Other restrictions may apply. No exceptions.
