	PLANT NAME	Color or Name	
--	------------	---------------	--

Other Wholesale Plants: Perennials, Native Woodland, Prairie and Wetland plants. Please request these lists if you are interested. Our woody plants and water garden plants are primarily directed toward our retail trade, however, these items are available to wholesale customers at a 20% discount. We strongly recommend using native wetland plants for water garden "escapees".

Delivery Charges: There will be a delivery charge of \$35.00 per stop for deliveries within 50 miles of Rhinelander; 51 to 100 miles will be \$65.00; 101 to 150 miles will be \$95.00. Longer distances will incur higher delivery charges. If regular gas prices exceed \$3.00/gallon, we reserve the right to add a surcharge to deliveries. There is a minimum purchase of \$600.00 for delivery outside the immediate vicinity.

Terms: Payment is due Net 30 days of the invoice (usually the day of delivery) for accounts in good standing. Any statements sent will not change the due date, statements are final. **Please Make Payment Off Invoice.**

New customers are COD for the first year of business with us. Customers will be cash on delivery only at our discretion. We reserve the right to request a deposit on pre-ordered crops.

Energy Surcharge: We hope that natural gas prices will be stable this winter, however, we reserve the right to apply an energy surcharge if necessary on any product NOT pre-ordered. Orders placed between February 12, 2010 are considered pre-ordered.

Customer Pickup is allowed with a 24 hour notice as long as we are able to pick up the plants ready for you. Wholesale customers are encouraged to visit and look over our crops during our business hours and then place their orders. However, "**hand-picked**" plants will be available on a limited basis. We strive to grow quality plants and feel we have a good reputation for doing so. We would like to hear any suggestions, comments or complaints that you may have that we can improve or that may help the customer. Our growing is primarily geared toward off-season crops, and less toward in-season orders. However, with that in mind, we do encourage orders for in-season needs as they come up. Thanks for your support!
