

ONIONS

ONION VARIETIES

Candy - 85 days, day neutral, yellow hybrid with large mild tasting bulbs

Copra - 107 days, the best, long-storage onion for the northern parts of the country, sweet flavor is slightly pungent while its moderate size lends itself well to smaller-portioned recipes, produces creamy yellow, round globes with fantastic flavor

Red Nugent - 112 days, long day red with high yield potential in multiple soil types

Walla Walla Sweet - 125 days, northern long day with mild, sweet flavor

White Lisbon Bunching Onion - 65 days, vigorous, easy to grow, day neutral buncher, slightly pungent

White Sweet Spanish—110 days, long-day onions that are large, sweet, and mild with good storage quality, let them grow up to a pound, or harvest small as scallions

Yellow Sweet Spanish - 130 days, old standard yellow with moderate storage potential

LEEK VARIETIES

American Flag - 85 days, mild flavored non-bulbing onion

Tadorna - 100 days, improved culinary leek
